The University of Utah (the U) has been providing world-class education for more than 165 years. Ranked among the 100 best universities in the world consistently for the last 10 years, the U is also one of the top 50 universities in the U.S., according to the Academic Ranking of World Universities by Shanghai Jiao Tong University. Recognized as a Tier 1 Research Institution by the Carnegie Foundation, the U is one of America’s leading research universities.

Academics

The University of Utah has built a reputation for excellence in education and research. The U attracts and retains world-class faculty—committed teachers and gifted lecturers; international experts; members of elite academic organizations; and winners of coveted awards, including the National Medal of Science and the Nobel Prize. An academic culture that encourages innovation, collaboration and entrepreneurship, has made the U one of the nation’s foremost generators of start-up companies.

Research and Creativity

As a student you can collaborate with professors or start your own research from your first day here. The University promotes top quality teaching and advanced research practices, which lead to innovation, creativity, and entrepreneurship. You can also be a part of world-class theater, film, music, and dance programs. Whether you’re interested in the fine arts or the sciences, you will be part of a rich legacy of excellence at the U.

WHERE IS THE UNIVERSITY OF UTAH (USA) LOCATED?
The University of Utah is located in Salt Lake City, a diverse and exciting city in the heart of the Intermountain West region of the United States. The campus is just minutes away from Salt Lake City International Airport, with short flights to major West Coast cities like Los Angeles and San Francisco. With easy access to the Wasatch Mountain Range near the Grand Canyon, the U offers endless opportunities for hikers, bikers and skiers seeking the best outdoor recreation available in the world.
Since opening in September of 2014, the University of Utah Asia Campus has been providing students in the Republic of Korea with the same world-class U.S. academic experience offered at the University of Utah campus in Salt Lake City, Utah. Our academic programs are designed to be hands-on, engaging, and collaborative while focusing on critical thinking, group projects, peer feedback, and faculty mentoring. By studying on both the Utah Asia and Salt Lake City campuses, students gain a truly international experience that prepares them for success in a globalized society.

Student success is a key component of the University of Utah undergraduate experience. An education at the U is a collaborative experience with established educational paths designed to work together to give you a better chance for success. The diversity of opinions and approaches will help you become an engaged and influential global citizen, and the ability to get real experience while at the U will help you prepare for your future career.
Application Process

To apply for admission to the University of Utah Asia Campus please follow the application process outlined below. You must submit your application by the designated dates and deadlines, and pay all indicated fees to be considered for admission.

**APPLY** – Students apply online at asiacampus.utah.edu and click the “Apply Now” button to apply to the University of Utah Asia Campus.

**PAY THE APPLICATION FEE** – The non-refundable application fee is $55. A $30 late fee will be required after the deadline. Please do not send cash.

**SUBMIT TRANSCRIPTS** – Official high school (grades 9-12) and/or university transcripts must be sent to the Office of Admissions directly from all schools a student attends. We also accept electronic transcripts from AVOW, Credential Solutions Transcripts Network, Docufied by Parchment, National Student Clearing House and Scrip-Safe.

**SUBMIT ENGLISH PROFICIENCY** – Applicants must demonstrate English proficiency. Please visit asiacampus.utah.edu/undergraduate-admissions/ for a complete list of approved English Proficiency Exams.

**SUBMIT ACT OR SAT IF APPLICABLE** – Students who have attended 2.5 or more years and plan to graduate from a U.S. or U.S. regionally accredited high school, or students who apply with a U.S. GED, must submit an ACT or SAT score. U.S. citizens and citizens of other approved English-speaking countries must submit an ACT or SAT score regardless of where they have attended high school. Scores must be sent electronically by the testing agency. Request scores by using school code 4274 for the ACT and 4853 for the SAT.

**TRACK STATUS ONLINE** – Students may track their application at admissions.utah.edu/track. Official admission decisions will be e-mailed.

*All application items (applications, fees, transcripts, and test scores) must be postmarked by the stated dates and deadlines to be considered for admission.

**All submitted tests must be within two years of application for scores to be valid**

**TRANSFER STUDENTS**

International applicants are classified as Transfer Students if they have completed at least one year of satisfactory work (30 credit hours) at another post-secondary college or university. Applicants with fewer than 30 semester credits after high school should submit materials required by Freshman applicants, including secondary school transcripts. International applicants transferring from another college or university must have at least a 2.60 cumulative GPA to be considered for admission. Admission to the University does not guarantee immediate entry into all majors.
Evaluation and Tuition

Each application is reviewed individually and consideration is given based on, but not limited to, the following factors, with greater emphasis given to primary factors:

Primary Factors
- Quality of courses and rigor
- Grade trends
- Cumulative unweighted GPA
- Quality of high school

Secondary Factors
- Academic honors
- Extracurricular activities
- Commitment to community engagement, citizenship, and leadership
- Application questions (extraordinary family obligation, military service, extenuating circumstances, etc.)

Credential Evaluation

The Office of Admissions does all credential evaluation and does not require students to use a credential evaluation service. Official transcripts, mark sheets, and school records for the last four years of secondary school (Gr. 9 – 12) should be submitted, including all external examinations. If proof of graduation is not listed on the transcript, a copy of the diploma or certificate will be required. All school records not issued in English must be in the original language with an official English translation completed by a certified translator.

Tuition

Studying at the University of Utah is an incredible value. During your time at the Asia Campus you will be charged $20000 per year ($10000 per semester). This will cover your campus fees and tuition. All housing, dining, and travel expenses, and other living expenses will be your responsibility and are not included in tuition and fees.

When you enroll at the U.S. campus, you will pay the U.S. campus tuition estimated for the 2017-2018 academic year at $24000 ($12000 per semester) which does not include housing, dining, books, and other living expenses.

Entrance Scholarship

One way we reward strong UAC applicants is through Entrance Scholarships. While primarily based on academics, award decisions may also consider leadership capacity, extracurricular activities, and commitment to community as well as awards and other non-academic factors.

Opportunity Scholarship

This scholarship is awarded to students based on: merit or previous academic performance, diversity, and demonstrated financial need. In order to be considered for this additional scholarship, students must complete an online application.

The Entrance and Opportunity Scholarships awarded to students are applicable for six (6) semesters of full time study. The Entrance and Opportunity Scholarship cannot be applied to the time spent studying at the Salt Lake City campus in the USA.

DEGREES AVAILABLE AT THE ASIA CAMPUS

UNDERGRADUATE

COMMUNICATION, BA/BS
The Communication Bachelor of Arts (BA) or Bachelor of Science (BS) degree emphasizes academic learning and technical knowledge and training to prepare you for careers in the areas of public relations, advertising, marketing, journalism, and more.

PSYCHOLOGY, BS
The Psychology Bachelor of Science (BS) degree provides excellent preparation for work in education, advertising, marketing, human resources, usability testing, survey/polling firms, or as psychiatric technicians, case workers, and research assistants in social science labs & firms, or for advanced degrees such as social work, medicine, law, or business.

FILM AND MEDIA ARTS, BA
The Bachelor of Film and Media Arts (BA) degree offers students the opportunity to explore the areas of film, animation, game design, and social media to understand how media of all types impacts people worldwide.

URBAN ECOLOGY, BS
The Bachelor of Urban Ecology (BS) is a highly interdisciplinary major. Environmental science, city planning, public policy, community development, and sustainability come together to challenge students to think critically about the issues faced by our urban communities.
The Communication major at the University of Utah emphasizes academic learning, including theoretical and methodological expertise, along with practical and technical knowledge and training. Many Communication graduates go on to work within the areas of public relations, advertising, integrated marketing, print and broadcast journalism, documentary film making, and photography. They enter these fields with broad knowledge and insight; a capacity for leadership; a sense of innovation and entrepreneurialism; critical thinking skills; strong decision-making skills; the ability to think, speak, write, and listen; and a general knowledge of the liberal-arts tradition.

The Department of Communication provides students many opportunities for internships and part-time work in professional settings, and the U’s Communication instructors have extensive professional experience. Students are required to take core courses that address media writing, media literacy and responsibility, visual communication, and mass communication law. They then choose between two sequences: Strategic Communication or Journalism. The Strategic Communication Sequence prepares students for careers in all aspects of strategic communication, including public relations, advertising, and integrated marketing. The Journalism Sequence prepares students for careers in all aspects of journalism, including new media, social media, electronic, web, print, and multi-platform reporting, editing, producing, photography, and video and audio production. Our graduates are well-prepared for positions in the multimedia, electronic, print, corporate, government, and nonprofit sectors.

communication.utah.edu

Department of Communication Rankings

• According to ComAnalytics, against Pac-12 peers, Utah ranks:
  • #1 in U.S. in communication research on Cultural Studies, Ethics, Film, History, Law, Memory, Narrative, Popular Culture, and Race and Ethnicity
  • #2 in U.S. for Research on Contemporary Issues, Critical Theory, Democracy, Health, News, and Theory
  • #3 in U.S. for research on Education, Persuasion, Print Journalism, Public Relations
  • #3 in U.S. for Total Publications (above Stanford)
  • #4 in U.S. for research on Broadcasting and Media, Politics and Government
• Current faculty consists of:
  • President of the International Communication Association
  • President of the American Journalism Historians Association
Psychology, BS

In the field of Psychology we seek to understand human thought and behavior, addressing questions with relevance to virtually every aspect of modern life. Psychology research identifies the links between mind, body and the social world, and is behind the design of everything from smartphones and children’s toys to online networks and public health ads. Psychology also includes the more well-known domain of counseling, which helps individuals lead happier and healthier lives. Our department faculty have been acknowledged with numerous teaching, research and service awards, and the department recently ranked among the top 50 clinical psychology programs in the United States. Federally funded research projects include work in such diverse areas as helping adolescents cope with type I diabetes, distracted driving due to cell phone use, the impact of genetic testing on prevention behaviors, treatment for trauma and suicidal thinking, space perception in virtual environments, children and emotions, and reducing human error in medical settings.

Our undergraduate program offers a wide spectrum of classes and experiences and is one of the largest majors at the U. Courses required for the major come from 5 core areas (Cognition, Behavioral Neuroscience, Clinical, Developmental, and Social Psychology). A variety of courses are available within each core area, many of which reflect the interdisciplinary nature of the field, such as Health Psychology, Human Performance and Engineering, Cognitive Neuropsychology, and Environment and Behavior. Training in statistics and research methods is central to the major, and there are many opportunities for students to gain research experience. The department also offers a Human Factors Certificate, which provides special training in how we can improve human interactions with equipment, software, and other people in order to enhance performance, increase safety, and improve user satisfaction.

psych.utah.edu

Department of Psychology Rankings

• #67 psychology program in the nation (U.S. News & World Report)
• #57 clinical doctoral program in the nation (U.S. News & World Report)
• Ranked in top third of all U.S. programs
• 25% of psychology faculty members have received major teaching or mentoring awards
Film and Media Arts, BA

The B.A. in Film & Media Arts offers students the opportunity to examine closely the art form that defines our time through a series of courses covering the history, aesthetics, and criticism of the motion picture. Significant experience in film and video production is also a required element of the program. Students graduate with a solid foundation in both the theory and practice of film as an art form.

Cinema from around the world forms the core of the course of study, lending the program an international lens through which to consider film not only as an expression of one’s own culture, but a means to understanding and experiencing others as well. Beyond film, students explore animation, game design, and social media to understand how media of all types impacts people worldwide. Diverse curricular options have led our alumni to work in independent film, the entertainment industry, education, and myriad creative business enterprises. Influential alumni include Ed Catmull, co-founder and president of Pixar, and Lee Isaac Chung, award-winning filmmaker.

This degree program will focus on artistic and independent filmmaking in Korea, emphasizing international importance and participation at the Busan International Film Festival and other major festivals in Asia. A degree program on the University of Utah Asia Campus will create significant opportunities for students and faculty to become directly connected to careers in the film community.

film.utah.edu

Film and Media Arts Program Rankings

- #1 in Undergraduate Program EAE Emphasis (Princeton Review)
- #21 Best overall Film/Video Colleges Nationwide (USA Today’s College Factual)
- #1 in Film and Media Program in the State (FilmColleges.com)
- Professor Sterling G. Van Wagenen of the Film & Media Arts Department is the co-founder of the Sundance Film Festival and the founding executive director of the Sundance Institute.
Urban Ecology, BS

The United Nations World Urbanization Prospect estimates that 54% of the global population lives in an urban area, a figure that will rise to 66% by 2050. The B.S. in Urban Ecology explores the interrelationships among social, environmental, and economic systems in order to enhance the vitality and sustainability of places and communities.

Students studying Urban Ecology confront the challenges of urbanization to understand the complexity of life in cities. In this highly interdisciplinary major, environmental science, city planning, public policy, community development, and sustainability come together to challenge students to think critically about the issues faced by our urban communities and how they might be overcome as cities continue to expand.

Demand for new professionals in these exciting fields is rising; upon graduation, 97% of Urban Ecology majors from the University of Utah have secured employment in government agencies, conservation organizations, consulting firms, universities, think tanks, and other employers around the globe. Our alumni work as urban planners, real estate developers, GIS experts, and policy analysts. The need for expertise in these areas is high and Utah students graduate prepared to face the challenges that lie ahead.

Urban Ecology Degree Rankings

- #30 in the United States with world class faculty who are internationally recognized as top tier scholars and university instructors
- Professor Reid Ewing, Chair of the Department of City and Metropolitan planning, is the 7th most highly cited planning educators in North America
- One of the top tier U.S. institutions to develop urban ecology as an undergraduate major, along with the University of Washington and Yale University
Student Life on the Asia Campus

Housing
Students at the University of Utah Asia Campus are eligible for on-campus housing, and have the option to be housed in fully furnished residence hall buildings that have lounges, a laundry, exercise facilities, and a cafeteria. The University of Utah provides a safe, comfortable, and healthy living environment that is shared with students from other universities also located at the Asia Campus. There are two fully furnished student dormitory complexes on the Incheon Global Campus, housing more than 2,000 students. A resident supervisor and an assistant live in the dorms to assist resident students. Find out more about housing at the Asia Campus at asiacampus.utah.edu/housing-dining.

Student Activities
Only a small percentage of your time at university will be spent inside the classroom, so it's important that you spend your time outside of the classroom wisely. At the Utah Asia Campus, students have the freedom to join and create clubs and activities for anything that interests them. Do you love to dance or sing? Do you want to play sports? Are you artistic and want to meet other creative students? Join or start a club!

Professional Development
Throughout your four years, staff and faculty work hard to help you prepare for the professional world that awaits after graduation. The University of Utah provides resources and opportunities for you to build your résumé, make connections, and position yourself for professional success.

One such opportunity that you won't find anywhere else is the Undergraduate Research Opportunities Program (UROP), which provides you with the chance to explore your own ideas, complete your own research, and receive funding from the university. This is your chance to get outside the classroom and explore the world around you!
Academic Support

The University of Utah’s primary goal is student success. The U provides the resources you need to succeed—like BlockU for undergraduates. With the BlockU program you will be part of a community of students studying and working toward similar goals. Studies show that when you’re involved and part of a community you are more likely to succeed.

Global Citizenship BlockU

The BlockU program is a two-semester set schedule—15 to 17 hours each semester—that combines General Education, support for student success, and integrated learning, organized around the theme of Global Citizenship. The aim of the Global Citizenship BlockU is to provide students with support services, a path to General Education course completion, and real-world application experiences.

BlockU students participate in community-based learning, and have the assistance of peer mentors, and student success advocates. Students also participate in applied, integrated learning experiences during the second semester. It is possible to complete all General Education requirements in two consecutive semesters of BlockU.
Transitioning to Salt Lake City

Immigration

If you are not a U.S. citizen, studying at the Salt Lake City campus will require a student visa. It is important to plan ahead to ensure that your transition to the United States goes as smoothly as possible. Our expert university staff will be there to assist you with the process.

To initiate your immigration process, the University of Utah will issue you an I-20, which is a form certifying that you are eligible to be a student at our U.S. campus. In order to issue your I-20, we will require some information from you:

- A financial statement showing a minimum of $39,350 available in liquid assets ($43,925 for graduate students);
- A signed statement from any sponsor (parents, family members, or others) declaring that person’s intent to provide financial support for you;
- A copy of the first page of your current passport or national ID card.

After your I-20 is issued, you will apply for your visa through the U.S. Embassy, have an interview with a consular officer, and be able to enter the United States up to 30 days before you start studying in Salt Lake City.

International Student and Scholar Services

The International Student and Scholar Services (ISS) office serves as the primary campus contact for students and scholars from across the world on the U’s main campus. When you arrive on the Salt Lake City campus, ISS provides support, resources, and a welcoming place for international students to meet friends at the U. At ISS, you can find help with everything from tutoring to immigration and visa questions. We encourage everyone on campus to share their cultures, traditions, and perspectives with each other to build intercultural understanding and global learning across campus and beyond.
Your Salt Lake City Experience

Student Life

University of Utah students come from all over the world and you’ll find just as wide a variety of ways to get involved. Whether you’re interested in athletics, dancing, cultural groups, or the arts, you will find a club or organization on campus to engage your interests. Whether you’re spending time on some of the best ski slopes in the entire world, volunteering in the community, or cheering on the basketball team with 15,000 other Utes fans, getting involved during your year in Salt Lake City is fun and a big part of your experience.

Housing and Dining

There are a variety of housing options on our campus in Salt Lake City and in the surrounding area off campus. Students live in on-campus accommodations ranging from single occupancy rooms to eight bedroom apartments. Some of the student housing on campus was built for the 2002 Winter Olympics and housed the athletes during the games! Off campus you’ll find affordable housing in the area to suit every budget and need.

When dining on campus, you’ll find an array of options that caters to you no matter your diet or preferences. With traditional American fare, international cuisines, and health conscious choices, you’ll never go hungry on campus. Grab a sandwich on your walk to class or sit and eat a buffet-style lunch with friends—it’s up to you!

Professional Preparation and Development

You will have access to numerous resources on the Salt Lake City campus designed to prepare you for life after graduation. Career Services is the central department on campus charged with preparing students for professional life. Experienced staff are available to help you each step of the way. They offer guidance for resume writing, interviewing, and securing the job or internship you want.

The Hinckley Institute and the Office for Global Engagement offer students the Global Internship Program. Students from any major can complete internships in over 50 countries. Since 1965, the Global Internship Program has been helping top students find positions on six continents.
